SIMPLE PRESENT VS PRESENT PROGRESSIVE

La principal **diferencia** entre el presente simple y presente continuo está en su uso, el presente continuo indica **acciones que suceden mientras hablamos**, mientras que el presente simple se utiliza para expresar **acciones habituales o situaciones permanentes**.

Otra **diferencia es la formación** de ambos tiempos verbales: para el *present simple* utilizamos el verbo en presente, mientras que para el *present continuous* usamos el verbo auxiliar *to be* más el gerundio del verbo correspondiente.
